From: William Reeves

RE: Application 09/583,336

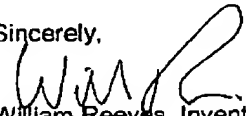

Dear Examiner Nguyen,

11/7/08

Attached please find an unofficial draft of the revised claims for this application. Per my voice message to you the other day I am accepting your changes to independent claim 58 that you faxed me several weeks ago. I have incorporated your changes to claim 58 herein. I also revised independent claim 68 in light of the revised claim 58. I also went through the dependent claims and made several changes for consistency and clarity.

Please review my draft of the changes and let me know if you have any comments or suggestions. I look forward to finalizing these claims, having them accepted, and having the patent issued!

Sincerely,

  
William Reeves, Inventor
